

# Euro-Dor® Collection

Old World Charm, New World Technology

*Have you ever been romanced by Europe's classic entryways? The Fimbel **Euro-Dor®** collection was designed for you. Manufactured from advanced materials for very low-maintenance and enduring good looks, our Euro-Dor® designs bring Old-World class and polish to your home. Nothing will replace the sense of pride you will feel when you roll up to your garage dressed in a Fimbel Euro-Dor®.*

*What makes our Euro-Dor® so unique? We carve our designs into the face of the surface material, this makes them extraordinarily customizable — if you can dream it, we can make it.*

# Euro-Dor® Collection

## Old World Charm, New World Technology

Doors featuring the Fimbel Footnote logo have been designed based on original period door designs. Fimbel doors are lauded by historic societies everywhere.

Using patented techniques, Fimbel doors are manufactured to the tightest tolerances allowing sections to be easily replaced.

Long-life performance for harsh coastal environments. We use advanced materials that do not rot, split or rust. Lasting beauty is built in to every Fimbel door.

Constructed from advanced materials, we've engineered most maintenance OUT of every door we build, for worry-free great looks – every day.
